

# Final Report Submission Guidelines

---

*Software Engineering Course 2016-17*

Prepared By: Saleha Masood (TA)

12/22/2016

---

## **Final Report Submission Instructions**

**Report Submission Deadline:** 7<sup>th</sup> January 2017

**Submission medium:** via Email on ([salehamasood08@gmail.com](mailto:salehamasood08@gmail.com))

### **Required Documents:**

1. A report containing the following files: **(Compulsory)**

- Title Page
- Introduction
- System Requirements Document
- Software Architecture Document.
- Use-case Specification Documents
- Test Analysis Document
- Conclusion
- References

**Note:** These files need to be combined together in a report form for final submission.

2. Complete source code containing all files ( i.e. Complete Implemented code, readme file) **(Compulsory)**
3. User Guidance (how to use and run code) **(Compulsory)**
4. Final presentation ppt **(Compulsory)**
5. Experimental data **(Compulsory)**
6. A single page document from every student containing student information and his/her contribution in the project. **(Compulsory)**
7. Bonus document **(Optional)**

### **Bonus Document Details:**

- As students have implemented a complete system, we encourage the students to convert the final report into a paper format and can submit that paper as a bonus document.
- By working on the bonus document, students will get a chance to learn how to write and prepare a manuscript.
- In order to prepare a bonus document, you can find a bonus document template and guidelines on the course website.
- In preparing bonus document students cannot copy any data from the existing papers, Plagiarism is strictly prohibited.
- In case plagiarism is found, bonus points will not be rewarded; instead few points will be deducted as penalty.
